

SMA Solar Technology and Statera Energy have delivered the battery energy storage project. Additional information. The 26 Sunny Central Storage battery inverters ...

Flexible energy company Statera Energy and German equipment manufacturer Man Energy have announced the start of a framework agreement for the supply of new high ...

UK-based energy company Statera Energy has received £300m (\$376.82m) of debt financing from a syndicate led by Lloyds Bank to develop a BESS and flexible generation ...

Kintore Hydrogen is another demonstration of Statera's commitment to balancing the grid and meeting the challenge of decarbonising the UK's energy system. The project will produce green hydrogen at scale in an ...

Statera Energy was founded in 2016 to help the UK make the transformational shift to a renewable led energy system by providing flexible storage solutions that help to ...

The North East has historically been a world leader in the energy sector, and large, first-of-its-kind pioneering projects like Kintore Hydrogen will help unlock investment in wind and hydrogen ...

Statera Energy has clinched a refinancing deal for its 50MW Pelham utility-scale battery storage plant in a transaction which it says demonstrates both the maturity and ...

Sungrow has announced that it is to partner with Statera Energy, an independent power producer and market leader in the provision of flexibility to the UK grid, on a 362 MW/391 MWh energy storage ...

Play your part in generation-defining projects as we transition to a decarbonised, renewables-led energy system, and a greener, cleaner future for the UK. ... Our people want Statera to have a ...

Statera has received planning consent for a 400MW/2,400MWh battery energy storage system (BESS) project in Weymouth. The project, at East Chickerell Court Farm, had ...

UK-based energy storage developer Statera Energy has secured up to £300 million of debt financing from Lloyds Bank for a 300MW/600MWh battery energy storage system (BESS). The Thurrock project ...

Statera Energy landed a £144 million debt financing deal in November 2023 and has now secured an additional £251 million, bringing the total debt facility to £395 million. The syndicate's financing takes the form of a ...

A 50MW battery energy storage facility being developed by Statera Energy has entered commercial operations in Malmesbury, Wiltshire. Dubbed Minety South Storage 2, the ...

Statkraft, one of Europe's largest renewable power generators, has agreed a "forward trade" for a Statera Energy battery asset in what has been called an "industry first" by ...

Statera Energy is planning to build a 3GW green hydrogen production facility in Kintore, harnessing surplus electricity generated by Scotland's offshore wind resources.

The partnership between EQT and Statera is an exciting step towards achieving this goal." Statera founder and CEO Tom Vernon stated: "It is essential that flexible generation ...

UK-based energy company Statera Energy has secured planning consent for a 290MW/1,740MWh battery energy storage system (BESS) to be developed near the county ...

Inverter supplier Sungrow has announced a new partnership with Statera Energy, to supply a 362MW/391MWh energy storage project in the UK. The first phase of the project was grid-connected in Q1, 2022, with the rest ...

Statera Energy has awarded a front end engineering and design (FEED) contract for the first phase of its ground-breaking 3GW Kintore Hydrogen project in ...

Image: Statera Energy. UK-based energy storage developer Statera Energy has secured up to £300 million of debt financing from Lloyds Bank for a 300MW/600MWh ...

Inverter supplier Sungrow has announced a new partnership with Statera Energy, to supply a 362MW/391MWh energy storage project in the UK. The first phase of the project ...

Oliver Troup, development lead at Statera Energy, commented: "Aside from the national benefit short duration storage provides in a flexible grid system, Statera's Culham ...

The first £144 million of the financing will go towards the BESS system while the rest will fund the gas plant. Statera has planning consent for 900MW of energy storage and generation at the site, pictured above, and the ...

Kintore Hydrogen will bring significant benefits for the whole UK by maximising the value of the UK's renewable energy assets and accelerating the production of clean and secure energy. Kintore Hydrogen is developing 3GW of electrolysis, ...

Investment organisation EQT Infrastructure has today (6 November) announced that it has agreed a deal with InfraRed Capital Partners to acquire Statera Energy. Statera, a UK-based battery energy storage and ...

Statera energy Cook Islands

UK battery energy storage system (BESS) developer-operator Statera has submitted a planning application for a 500MW project in Oxfordshire, England. The company ...

The project will be located near an existing solar farm, as seen in the image above. East Devon County Council agreed that the BESS was needed to store renewable energy from the grid when generation exceeds ...

Statera Energy secures £300m of debt financing for Thurrock energy storage and flexible generation project. 23 November 2023. Update. EQT Infrastructure to acquire Statera. 6 November 2023. Update. Statera Energy ...
