Construction of the largest solar park in the Baltics officially began November 22, as Sunly's co-founder and CEO, Priit Lepasepp, along with partners, ceremonially installed the first solar panels at Risti, Estonia. The park, which is set to become operational in the fall of 2026, will have a total capacity of 244 MW and generate electricity for approximately 55,000 households.

Tallinn, Harjumaa, Estonia (latitude: 59.433, longitude: 24.7323) offers varying potential for solar power generation throughout the year. The average energy production per day per kW of installed solar capacity in each season is as follows: 5.99 kWh/day in Summer, 1.54 kWh/day in Autumn, 0.50 kWh/day in Winter, and 3.97 kWh/day in Spring.

Producing green energy for a cleaner tomorrow Evecon develops wind, solar and energy parks in Estonia, Latvia and Lithuania Development project volume 1500 GW With this, we cover the annual energy needs of 540,000 households. ...

Our solar parks are located in Estonia and Poland. We entered the solar power market in 2017, establishing a solar power station on the roof of the Estonia dairy farm in Järva-maa, where we installed 644 solar panels. We currently produce solar energy in Estonia and Poland, where we have a total of 43 solar parks. Our solar parks contain over ...

Later on, other co-founders, including Andres Anijalg (COO) and Raimond Russak (CFO) joined Roofit Solar Energy. In 2017 Roofit Solar Energy introduced its standing seam solar modules to the local market and got so popular that it was hard to keep up with the demand.
