

Who was the Sun King of France?

Sun King and Versailles. Paris. The French monarchy reached its peak under the 72 year long reign of Louis XIV, known as Sun King. The son of King Louis XIII and Queen Anne of Austria, the 4 years old king succeeded his father on the throne of France in 1643. During 18 years, he trained himself in the shadow of his mother, who acted as regent.

What is Kingia australis?

The genus name was chosen to honour both King and his father Philip Gidley King, who was Governor of New South Wales during Brown's voyage under Flinders. The species epithet australis is Latin for "southern". Kingia australis is confined to the southern half of Western Australia. Woodcutter alongside a stand of kingia.

What type of plant is Kingia?

Kingia is a genus consisting of a single species, Kingia australis, and belongs to the plant family Dasypogonaceae. The Aboriginal name bullanock is used as a common name for the plant. It has a thick pseudo-trunk consisting of accumulated leaf-bases, with a cluster of long, slender leaves on top.
