

Sundrive solar Northern Mariana Islands

Who are Sundrive solar & trinasolar?

SunDrive Solar, Australia's leader in solar innovation, and Trinasolar, one of the world's largest solar manufacturers, have signed a Memorandum of Understanding (MoU) to form a majority Australian-owned joint venture (JV). This JV aims to establish cutting-edge solar manufacturing capabilities in Australia.

Will trinasolar and Sundrive solar make solar panels in Australia?

China's Trinasolar is teaming up with Australia's SunDrive Solar to manufacture solar panels in Australia. The 2 companies have signed a memorandum of understanding to form a joint venture (JV). The majority Australian-owned JV will aim to establish solar manufacturing capabilities in Australia.

Why is Sundrive partnering with trinasolar?

"This collaboration with Trinasolar, one of the world's largest and most respected manufacturers, is a testament to SunDrive's position as a world leader in solar innovation.

Will Sundrive solar bolster domestic solar PV Manufacturing?

Vince Allen, co-founder and chief technology officer of SunDrive Solar, reiterated the support the partnership is expected to play in bolstering domestic solar PV manufacturing and the financial benefits it could bring to the Australian economy.

What is the difference between Sundrive solar and trinasolar?

SunDrive Solar is an Australian solar technology company. Its copper metallisation technology has the potential to revolutionise solar manufacturing by replacing silver with copper, a more abundant and cost-effective material. Trinasolar is a global provider of photovoltaic (PV) module and smart energy solutions.

What is Australia's solar SunShot program?

The Australian Government's A\$1 billion Solar Sunshot program supports the commercialisation of Australian solar PV innovations and enhances solar PV supply chains in Australia. Two funding rounds with a combined A\$550 million are now open for application. More about the renewable energy sector

SunDrive Solar, Australia's leader in solar innovation, and Trinasolar, one of the world's largest solar manufacturers, have signed a Memorandum of Understanding (MoU) to form a majority Australian-owned joint venture (JV).
