

Sunlight battery Bhutan

What will sunlight's lithium battery technology be used for?

A company spokesperson told Energy-Storage.news today that Sunlight wants the lithium battery technologies it develops to play a key role in areas including automated guided vehicles, electric buses and shipping, as well as in "smart storage systems for renewable energy sources".

How much money does sunlight get for a lithium-ion battery project?

Image: SUNLIGHT. A EUR105 million (US\$127.6 million) push to develop low-cost, environmentally-friendly lithium-ion battery technology by Sunlight, a designer and manufacturer of batteries headquartered in Greece, will receive EUR49.9 million in grant funding.

Does sunlight have an R&D facility in Xanthe?

The company already has one R&D facility in Xanthi, Greece. Sunlight is the first Greek company to be a part of an IPCEI consortium and the country's Ministry of Development and Investment decided that the benefits of investing in a green future and the innovative nature of Sunlight's project were worthy of funding, Sunlight said.
