

Suvastika com Chad

What does Su-Vastika do?

Su-vastika aims to replace the existing Tubular Lead Acid market with clean Lithium batteries. The company has already made Energy Storage Systems to replace diesel generators and earn carbon credits for its clients.

Does Su-Vastika have a patent?

The company has secured multiple patents and copyrights in Solar, Inverters, Lithium Batteries, Electric Vehicles, automatic testing machines and equipment, further enhancing its global position in Power backup and Technology. Su-vastika has received 10 Technology Patents, becoming India's first Startup company to receive Technology Patents.

Does Su-Vastika offer lithium batteries?

Su-vastika has already developed Lithium batteries for the existing Lithium Inverters, Lithium UPS, Lithium-ion battery based Solar Hybrid Inverters and Solar PCUs, focusing on Lithium-based Solar PCUs and Hybrid Solar Inverters installed in the market. Su-vastika aims to replace the existing Tubular Lead Acid market with clean Lithium batteries.

Does Su-Vastika support a grid 24/7?

Su-vastika grid-connected energy storage system can support a grid 24/7 by providing frequency and voltage support. ESS can be a great resource for renewable energy (RE) and electric vehicle (EV) integration with the electricity distribution grid.

What makes Su-Vastika a partner for global growth?

A Partner for Global Growth: Su-vastika's expertise in export markets, showcasing our Star Export House recognition by the Government of India and their established presence in various countries.

Does Su-Vastika have BIS certification & CE certification?

Su-vastika has got the BIS certification and CE certification for its product range. Su-vastika is at the forefront of technological advancement in the field of Inverter/UPS and Energy Storage Systems.

Contact Email info@suvastika Su-vastika stands amongst the top solar power generation companies in India. The vision behind the scaling startup is to create power using solar energy ...

GURUGRAM, INDIA / ACCESSWIRE / October 4, 2024 / Su-vastika, a popular Indian Startup in the Green energy space, has announced the launch of a pocket-sized 1S to ...

Applications: Home use: Ideal for powering devices like computers, TVs, gaming consoles, home networking equipment, and small appliances.; Office use: Suitable for workstations, printers, small servers, networking equipment, and other critical office tools that require constant power.; Conclusion: The Su-vastika ESS 2500

Here are some of the leading Indian manufacturers of Energy Storage Systems in India: Su-vastika: This startup company is mentored by Mr. Kunwer Sachdev, the founder of Su-kam and known as the Inverter Man of India is making Energy Storage Systems indigenously and installing these systems at a breakneck pace. Su-vastika has already installed ESS ...

Go Solar with the Su-vastika 15KVA 3 Phase Lithium Inverter. Features: Unmatched Reliability: Pure sinewave technology ensures clean and stable power output, even better than grid power in some cases. Long Backup: The 19.2kWh lithium battery provides ample power to run appliances like elevators and air conditioners during outages. Seamless ...

A battery energy storage system (BESS) or battery storage power station is a type of energy storage technology that uses a group of batteries to store electrical energy. Battery storage is the fastest responding dispatchable source of power on electric grids, and it is used to stabilize those grids, as battery storage can transition from standby to full power in under a ...

IGBT, or insulated gate bipolar transistor, is a power semiconductor device used in various applications, including industrial UPS. IGBTs offer several advantages over other types of power devices, including: High efficiency:...

Kunwer Sachdev is a trailblazing businessman, founder of Sukam and Mentor at Suvastika, and inventor frequently called the "Father of the Inverter Industry in India." Having founded Su-kam Power Systems Ltd., Sachdev has been instrumental in many advances in the fields of energy storage and batteries. Even though Su-kam is no longer ...

Voltage Regulation: Protects appliances during voltage fluctuations as it protects the appliances from High and low voltages as it senses the settable High and low voltage and switches to the battery mode in a fraction of seconds to save the appliances. Space-saving: The wall-mounted lithium battery is a major advantage of saving the space and the lithium ...

:-D Kunwer Sachdev: From "Inverter Man" to Solar Pioneer Kunwer Sachdev, known as the "Inverter Man of India", is an entrepreneur who revolutionized the power backup industry. He founded Su-Kam Power Systems, a leading Indian brand, but faced challenges that led him to mentor Su-vastika, a new venture focused on solar and power storage solutions.

John_Smith@suvastika : 5: last: Smith@suvastika : Your Questions, Our Answers Get Free Access to Su-vastika Systems Private Contacts Info. What is Su-vastika Systems Private ...

Su-vastika is a leading power backup solutions company driven by technology and innovation. Our aim is to provide a continuous power supply that is efficient, cost-effective and green that ...

The UPSs available in the market are all come with SMF battery bank either builtin battery or external SMF battery bank having a small backup time maximum 30 minutes to 1 hour backup power.

Let us compare High Vs Low-Frequency Inverters/UPS Comparison. Two kinds of commonly used Inverters/UPS; High Frequency and Low Frequency. In commoner's words, High-frequency Inverters/UPS are those without Transformers, and Low-Frequency Inverters/UPS...

Here's what makes Su-vastika's Retrofit Lithium Battery special: Universal Compatibility: Works flawlessly with any 12V, 24V, or 48V inverter or UPS, regardless of brand, model, or existing battery configuration (single, double, or four tubular batteries). Capacity: The Lithium-ion battery for Inverter comes in C1 capacity and Lead Acid battery comes in C20 ...

Lately, the incidence of fires due to tubular lead acid batteries has been on the rise in India. According to a report published on Zee News, sometimes batteries are in such bad condition that they can even cause explosions or fire. It is no wonder that both families and factories have been looking for a [...]

Introducing the next generation of power backup: Suvastika Retrofit Lithium Batteries. Say goodbye to outdated technology and hello to extended power, longer life, and worry-free operation. Our revolutionary batteries are compatible with all existing inverters and UPS systems, making them the perfect upgrade for your home or business.

Lately, the incidence of fires due to tubular lead acid batteries has been on the rise in India. According to a report published on Zee News, sometimes batteries are in such bad condition that they can even cause explosions or fire.

Swiggy announced in 2021 that it would replace diesel generators with lithium-ion batteries at its cloud kitchens across India. The company said the move was part of its efforts to reduce its environmental impact.

Su-vastika Indian Startup working on Energy Storage Systems, battery for inverter, battery for UPS, Solar Inverter, Solar PCU, Solar hybrid off-Grid System, Lift Inverter, Lift UPS, ERD, Emergency rescue Device, Pure Sinewave Inverter/UPS, Pure Sinewave UPS with ATC Heavy Duty UPS, Industrial UPS, Lithium battery etc.

Su-vastika has developed the Battery ESS with the Lithium battery bank and has started installing these systems in various pockets. The journey has been quite a learning experience, and we are continuously developing the technology which shall work in an Indian environment where a lot of dust, humidity and heating is all around.
