

Is there a shortage of solar installers in Sweden?

Skill shortage: There is a shortage of trained installers, which could slow down the pace of solar energy adoption and implementation of renewable energy projects. Sweden has already reached its solar target in the current NECPs in force of 2.2 GW and has established a new target in its draft revised NECPs of 6.6 GW, 119% higher.

How much solar is installed in Sweden in 2022?

The installation rate of PV continues to increase rapidly in Sweden, particularly rooftop and domestic ones. In 2022, a total of 796.6 MW of grid-connected solar capacity was added, which means a 59% market growth compared to the 499.7 MW installed in 2021.

How many GW of solar will Sweden install by 2030?

It also secured a grid connection for a 100 MW project in western Finland. The company has set a target of installing at least 5 GW of solar by 2030. Sweden added around 1.6 GW of solar last year, taking its total cumulative installed capacity to approximately 4 GW.

Does Sweden have a roadmap for solar PV?

Sweden lacks a roadmap or strategy on solar PV, but there are some reports by the Swedish Energy Agency including aspects on potential, barriers, roadmaps, etc.

Will Svea solar install 5 GW of solar by 2030?

The company has set a target of installing at least 5 GW of solar by 2030. Sweden added around 1.6 GW of solar last year, taking its total cumulative installed capacity to approximately 4 GW. This article has been updated with details of Svea Solar's partnership with Sveaskog.

How will Alight & Svea solar co-own solar parks?

Under the terms of the agreement, Alight and Svea Solar will develop, build and co-own solar parks on Sveaskog's land. Sveaskog, which is a state-owned company, will lease the land, co-invest between 30% and 49% in the solar parks and own the facilities together with each partner company. Development of the first two projects has already begun.
