

What is Eaton xstorage compact energy storage?

The Eaton xStorage Compact energy storage system enables buildings owners and facility managers to solve power management challenges for their small and medium commercial and industrial sites. Eaton xStorage Compact helps them increase local renewable energy consumption and integrate the charging infrastructure for electric vehicles on site.

What is Eaton xstorage compact 20 kW - 40 kW?

3.2 System description and main components The Eaton xStorage Compact 20 kW - 40 kW is a single rack energy storage system(ESS). It is a modular and scalable solution for various energy storage applications in residential,commercial and light industrial buildings.

What is the xstorage compact?

Designed as an all-in-one single rack energy storage system, the xStorage Compact is a multi-usage solution enabling a wide range of applications such as PV self-consumption, peak shaving, load shifting, back-up power, electric vehicle charging station integration and grid support.

How do I contact Eaton xstorage compact?
