Mike will have a central role in helping the Company deliver on its vision to provide a global platform that delights customers through intelligent control of energy assets and provides the [...]

By Roger Hollies, CTO, Arenko. In the UK, there was a huge frequency event (49.63Hz) on Thursday 8th June 11:38 caused by a loss of power to the grid slowing the speed of the grid down like the engine of a car hitting a steep hill. Industry data points towards a 1.4GW instant loss of power from the North Sea Link interconnector.

Market participation: Complete control capabilities as well as data requirements to participate in and stack any market Delivery accuracy and redundancy: High accuracy, observability and redundancy of asset data, trading strategies and dispatches to reduce penalties and/or lost trading opportunities Revenue optionality: A free choice of optimiser without losing the OPEX ...

Rupert Newland, Founder and CEO of Arenko Group, said: "Arenko is proud to count Gresham House Energy Storage Fund, which owns and operates the largest portfolio of energy storage in the UK, among its clients which include multiple listed energy firms and specialist energy storage funds. This framework agreement exemplifies Arenko"s strong ...
