

Syria ensol energy

What type of energy is primarily used in Syria?

In Syria, most energy is based on oil and gas. Some energy infrastructure was damaged by the Syrian civil war. In the 2000s, Syria's electric power system struggled to meet the growing demands presented by an increasingly energy-hungry society.

Can Syria match all-purpose energy demand with wind-water-solar (WWS)?

This infographic summarizes results from simulations that demonstrate the ability of Syria to match all-purpose energy demand with wind-water-solar (WWS) electricity and heat supply, storage, and demand response continuously every 30 seconds for three years (2050-2052).

What happened to Syria's electricity sector in 2021?

In 2021, Syria's Ministry of Electricity estimated total losses to the electricity sector at USD 2.4 billion due to infrastructural damage and acute shortages of fuel and water needed to power Syria's thermal and hydroelectric infrastructure.

How many barrels of oil does Syria produce daily?

Syria produced 400,000 barrels per day (64,000 m³/d) in 2009 and exported about 150,000 barrels per day (24,000 m³/d). The country's oil reserves were estimated to be 2.5bn barrels in 2010. The Syrian Petroleum Company (SPC) is a state-owned oil company established in 1974.

Why is energy demand increasing in Syria?

Energy demand in Syria has been increasing at a rate of roughly 7.5% per year due to the expansion of the industrial and service sectors, the spread of energy-intensive home appliances, and state policies that encouraged wasteful energy practices, such as high subsidies and low tariffs.

What happens if Syria is interconnected to the Mideast?

Estimated long-term, full-time jobs created and lost in the Mideast as a whole and in Syria itself when interconnected to the Mideast, due to transitioning from BAU energy to 100% WWS across all energy sectors.

Ensol Energy Management Solutions is a full-service firm. We buy equipment in bulk bypassing the traditional distribution channels so that we can offer the lowest wholesale prices to our clients. In addition, we have a team of skilled Electrical Engineers dedicated to installing energy-saving equipment; therefore, you can be confident that we ...
