

As the world continues to confront the challenges of the COVID-19 pandemic, today we announce the 19th Asian Battery Conference and Exhibition (19ABC) planned for Kuching, Malaysia, will now be held as a virtual event. While we were optimistic that moving 19ABC from September to November 2021 would enable us to host the physical event [...]

1. Support the production of all battery technologies in Europe Batteries are critical to the fight to decarbonise our economy and tackle climate change. All battery technologies -- lead, lithium, nickel and sodium -- are needed to support the decarbonisation of the transport, energy, logistics, production and telecommunications sectors. No single battery technology ...

December 6, 2023: EU competition chiefs have accused Clarios, Exide Technologies, Banner, Rombat, Fiamm Energy Technology and its predecessor Elettra of possible collusion to fix starter battery prices, aided by trade ...

This updated roadmap serves as a strategic guide for policy makers and stakeholders, providing a detailed overview of the current state and future directions of battery technologies, with concluding recommendations with the aim to foster industry resilience, competitiveness and sustainability in Europe's Battery Technology sectors.

Eurelectric Presentation at Eurobat Webinar on: Battery Solutions for Energy Storage (BESS) Wednesday, 20 September 2023. Why: REPowerEU demands accelerated RES electrification by 2030. In 7 years, the Wind & Solar capacity of EU-27 should. grow to 1102 GW from 349 GW.

Taiwan has a much larger footprint in the battery pack assembly sector, with US\$4.16 billion in sales in 2019, amounting to nearly 13% of worldwide market share. Competitors in this segment include Simplo, ...

As the leading European association for advanced rechargeable batteries covering all battery chemistries, EUROBAT brings together the battery value chain to drive innovation and contribute technical expertise to the EU policy-making process.

Taiwan has a much larger footprint in the battery pack assembly sector, with US\$4.16 billion in sales in 2019, amounting to nearly 13% of worldwide market share. Competitors in this segment include Simplo, DynaPack, Celxpert, ...

EUROBAT E- Mobility Battery R& D Roadmap 2030 - Battery Technology for Vehicle Applications. Related Documents; Eurobat emobility roadmap lores 1 (pdf) About Batteries; Press Releases; Resources ©eurobat 2024 ...

18 October 2024 Position Paper and Publication EUROBAT feedback on the update of the draft Commission delegated decision amending Decision 2000/532/EC as regards an update of the list of waste in relation to battery ...

EUROBAT discusses the importance of continued battery innovation and outlines potential areas to be addressed by battery research and development. Eurobat is the association of Automotive and Industrial Battery Manufacturers and their subcontractors in Europe, the Middle East, and Africa. Representing the European battery industry, EUROBAT ...

EUROBAT is convinced that they should receive support at the European and national levels. In this Roadmap, we outline the European battery industry's vision of which technical improvements should be prioritised for e-mobility batteries, from now until 2030. EUROBAT's Roadmap focuses on three existing battery technologies (advanced lead-based,

The developing European Regulatory Framework for the Battery Industry In August 2023, the European Battery Regulation entered into force, replacing the old directive from 2006. Why now? Of course, among the drivers is the exponential growth of electric vehicles (EVs), which in 2022 accounted for over 1.3 million vehicles sold in the European Union.

EUROBAT, along with the European Portable Battery Association (EPBA) and Recharge, have released its latest guidance focusing on the definition of a battery and its implications within the framework of the EU Batteries Regulation (EU 1542/2023). Understanding which objects meet the battery definition is essential for ensuring compliance with the Batteries ...

July 1, 2022: A new roadmap unveiled by EUROBAT on June 24 sets out the case for all battery chemistries to be deployed to help Europe meet its climate and energy sustainability goals. The "EUROBAT 2030 Battery Innovation Roadmap 2.0" was launched at the trade association's annual forum in Brussels by Clarios' EMEA vice-president for ...

Description: The EUROBAT General Assembly and Forum 2024 is a pivotal event for the European battery industry, bringing together over 100 key stakeholders, including senior executives, policymakers, and industry representatives. The event will feature panel discussions on pioneering innovation, creating a balanced global playing field, and circularity.

December 6, 2023: EU competition chiefs have accused Clarios, Exide Technologies, Banner, Rombat, Fiamm Energy Technology and its predecessor Elettra of possible collusion to fix starter battery prices, aided by trade association EUROBAT.

14:15-14:55 Presentation of the EUROBAT Battery Innovation Roadmap 2.0. Bernhard Riegel, Director Research & Development, Hoppecke; Christian Rosenkranz, Vice President Industry & Government Affairs
