

What is the Energy Storage Summit Central Eastern Europe?

The Energy Storage Summit Central Eastern Europe is the premier event for the energy storage industry in the region. Taking place in the vibrant city of Warsaw, the summit will bring together industry professionals from across the Central Eastern Europe region to explore the latest developments in the energy storage space.

How will a new battery energy storage system help Kosovo?

Following the announcement in 2022 that Kosovo was going to begin building its first battery energy storage systems (170MW/340MWh), this will provide relief to the energy crisis by stabilising the fluctuating frequency of electricity and help integrate other renewable assets onto the grid.

Will Hungary increase energy storage capacity by 2026?

Learn how to future-proof your energy storage investments. This session looks at the business case and potential of Hungary, whose government has committed to increasing energy storage capacity to 1GW by 2026. With fresh investment and plans looming, join us for a discussion about the business case for Hungary, and what is upcoming.

Why should you attend the Solar Storage Summit?

Check back to this page for the information you need to know about the Summit. Unlike other storage conferences, proceeds from the event help to fund high quality journalism across our media titles. This supports the growth of the solar and storage industries as well as the transition to a cleaner power system
