

Techno solis solar panel Mayotte

Are technosolis solar panels any good?

Technosolis solar panels have been imitated time and time again, but the quality has never been equaled. The TechnoSolis solar system has a patented design that heats your pool reliably and at a very comfortable temperature, without increasing your gas or electricity bill as the pool heat pump, propane pool heater, or the natural gas pool heater.

Why is techno-Solis better than other solar pool heaters?

Techno-Solis' patented flat panel design is proven to be more Efficient and more Durable than other solar pool heaters. Here's why: They Absorb More Heat: Techno-Solis collectors are visibly thicker than any other pool heating collector because we use up to 35 percent more raw materials in our panels. This attracts more heat.

What is a technosolis solar pool panel?

Interconnected flow tubes to prevent heat loss. Other panels allow heat to escape between the tubes, cooling the flowing water down. *British Thermal Unit for energy (heat). the panel retains. TechnoSolis solar pool panels come with a lifetime product warranty, an initial 10 year period, followed by a lifetime limited warranty.

Does techno-Solis heat a pool?

The Techno-Solis panel has been imitated over and over again, but our quality has never been duplicated. Our system has a patented design which will reliably heat your pool to a comfortable swimming temperature without increasing your utility bills. Do Solar Pool Heaters Work in the Shade?

How do technosolis solar panels work?

Techno-Solis Solar Powered Pool Heaters are reinforced by adding a bead weld to provide panels with additional strength and protection. Before Leaving Factory, Every Panel goes through rigorous Quality assurance/Quality control test for seam, flow and finally pressure test at 95 psi. Why Technosolis Panels?

What size solar panels does technosolis make?

TechnoSolis manufacture different sizes of panels, to optimize your roof, from 4' x 4.5' to 4' x 12'. The TechnoSolis solar pool panel has the highest BTU*rating on the market (Solar Florida Energy Center) with 48 000 BTU*per panel.
