

TEXEL Energy Storage AB ("TEXEL") announced a rebranding to TEXEL Energy, a name change that better reflects the multifaceted business opportunities that have emerged through years of research and development (R& D), acquisitions, and partnerships. This rebranding marks a new phase for the company with focus on commercialisation, where energy ...

TEXEL's thermal energy storage technology stores electricity as thermal energy (heat) and can maintain this stored energy for exceptionally long periods--potentially hundreds of years--with minimal energy losses. For commercial applications, TEXEL is focused on delivering systems with storage capacities ranging from 6 hours to seasonal storage.

The acquisition is in line with TEXEL's ambition to remain at the forefront of thermal energy conversion technology, which encompasses stored heat-to-electricity systems and waste thermal...

TEXEL Energy AB ("TEXEL"), a world leader in thermal energy-to-electricity technology, has today announced the acquisition of all Stirling engine...

TEXEL's thermal energy storage technology stores electricity as thermal energy (heat) and can maintain this stored energy for exceptionally long periods--potentially hundreds of years--with ...

TEXEL Energy is further investing in Jord AB, and simultaneously, the companies have signed an agreement to adapt TEXEL's energy production technology to generate electricity from Jord's...

TEXEL is developing the next-generation Hybrid / Long duration Energy Storage technology, cost-effective, circular, sustainable and scalable. TEXEL in combination with renewable energy, like solar, is not only cost-competitive to fossil fuels but also a technology that secures energy distribution 24/7/365.

TEXEL Energy Storage AB ("TEXEL") announced a rebranding to TEXEL Energy, a name change that better reflects the multifaceted business opportunities that have ...

TEXEL Energy is an innovative energy technology company with Swedish origins, dedicated to accelerating the green transition by developing and commercializing true-green, modular, and sustainable solutions to meet global energy challenges.

The acquisition is in line with TEXEL's ambition to remain at the forefront of thermal energy conversion technology, which encompasses stored heat-to-electricity systems ...

This rebranding marks a new phase for the company with focus on commercialisation, where energy storage

remains a prioritized business area, while new business divisions such as TEXEL Flare Gases, TEXEL Defence, ...

This rebranding marks a new phase for the company with focus on commercialisation, where energy storage remains a prioritized business area, while new business divisions such as TEXEL Flare Gases, TEXEL Defence, and TEXEL Biofuels are introduced.

TEXEL Energy is further investing in Jord AB, and simultaneously, the companies have signed an agreement to adapt TEXEL's energy production technology to ...
