

Thailand soluna battery

What is a Soluna HV pack battery?

Soluna's HV Pack batteries are pre-assembled High-voltage LiFePO₄ Lithium battery storage systems designed specifically for Hybrid homes and small businesses. The Soluna 10K HV (L-E) is a single unit consisting of both the batteries and BMS. Compatible with - Sermatec and Solinteg Hybrid inverters in our current portfolio.

How long does a Soluna battery last?

The Soluna's power pack contains Lithium Iron Phosphate (LiFePO₄) cells, which have up to 20 years of stable and safe backup power. You can trust the Soluna to provide up to 20 years of backup power. The Soluna's power pack contains cutting-edge Lithium Iron Phosphate (LiFePO₄) cells, which have up to four times the lifespan as other Lithium-ion batteries.

Are Soluna batteries any good?

George and the Soluna team have been great to work with. We have been developing a few solutions together of the past few years and we have loved every minute of it. They have been terrific and their products are top notch. I have been extremely happy with the battery unit I received and its performance.

What is a Soluna power bank?

Soluna power banks are designed to provide you and your family peace of mind in the event of a power outage. Our power detection system will sense outages in real-time. Download our catalog and get a deeper look at our battery banks. Most energy produced occurs mid day, while peak power usage happens in the morning and evenings.

Does the Soluna have battery backup?

The Soluna can be integrated with any existing solar panel system with battery backup. Solar panels without battery backup are nice, but when the grid goes down, your house still goes down. Get prepared first with battery backup and use the Soluna with grid power until you're ready to add solar panels down the road.

What is a Soluna 10K HV (L-E)?

The Soluna 10K HV (L-E) is a single unit consisting of both the batteries and BMS. Compatible with - Sermatec and Solinteg Hybrid inverters in our current portfolio. The parallel connection of up to 10 identical (via Soluna Parallel Box) allows a maximum capacity of 100kWh.

Soluna Battery Module EOS 5K is a 48V battery solution ideal for Residential and small Commercial energy storage applications. The model is adopting by latest LiFePO₄ technology with intelligent BMS integrated inbuilt blackout protection for energy security, offering a 5kWh capacity that can be installed in parallel with up to 12 batteries enabling 60kWh of total storage.
