

Will a new solar plant increase energy demand in the Gambia?

Energy demand in The Gambia has increased by 5.5% per year in recent years and today's connection of the new 23 MWp solar plant to the national energy grid will significantly increase Gambia's current generation capacity of 98 MW and enable electrification of rural areas. A strong commitment

Why should the Gambia invest in solar energy?

To match the rising demand and to provide sustainable and accessible energy to all Gambians, the potential for solar energy investment is immense in The Gambia. The government of The Gambia seeks to increase RE's contribution to 40% from 2% presently in the coming years.

Is Gambia ready for a new era of renewables?

Gambia: strong international support for a new era of renewables with inauguration of historic 23 MWp solar plant. A significant strategic project with strong substantial economic and social impacts, the recently inaugurated solar photovoltaic plant in Jambur is poised to supply electricity to approximately 18,500 households.

Does the Gambia have a demand tailwind?

The Gambia's absolute electricity consumption and per capita consumption have been steadily increasing since 2000 demonstrating the country's demand tailwinds. This trend is expected to continue in the near-term with a rising population and the continued expansions of businesses.

Is the Gambia a good country?

The Gambian workforce is one of the country's principal assets, arousing considerable enthusiasm among business-people, both foreign and domestic. The country is one of the safest and politically stable countries in Africa and has attracted over \$830m in FDI since 2003. The Gambia has a young and talented labor force of an estimated 774,000 people.

Increasing investment into clean and reliable renewable energy for The Gambia is a top priority of the government. Due to its strategic location and ideal conditions, The Gambia is ideally suited for investment into the Solar Energy sector. The ...

A directory of contact address details of companies that import & sell PV solar energy units & related equipment as well as solar installers & consultants in Gambia. This page has telephone numbers, some emails, faxes, websites, main locations in the Banjul area such as for Gamsolar Energy & Engineering Company Gambia Ltd.
