We are determined to play an active role in the transformation of the energy market,and this is why we develop responsible energy solutions that make a difference to people and planet.

Is biomass a source of electricity in Gambia?
Traditional biomass - the burning of charcoal,crop waste,and other organic matter - is not included. This can be an important source in lower-income settings. Gambia: How much of the country's electricity comes from nuclear power? Nuclear power - alongside renewables - is a low-carbon source of electricity.

Why is made energy a member of the WLPGA?
MAKEEN Energy has been a member of the WLPGA since the early days of the organisation because we recognize the benefits of having a strong alliance inside the global LPG businessas well as a strong united voice towards the external world. Being a member gives us the needed knowledge of the LPG world which enables us to excel in our business.
