In early 2023, an MWM TCG 3020 V16 gas engine was installed for the Nigerian plastics manufacturer Panar Group of Companies. Together with an MWM TCG 2020 V12 K1 gas engine, the new engine generates energy for the company's production processes.

Mannheim, March 29, 2023. After the installation of three MWM gas engines for the Indian industrial coolant manufacturer Gujarat Fluorochemicals Limited (GFL), the Indian MWM distributor and service partner Green Power International Pvt. Ltd. performed comprehensive maintenance work. The MWM gas engines in island mode produce heat and power for the ...

The generated heat can be fed into a local and district heat grid that supplies the population in nearby regions with energy. MWM TCG 2032 V16 Gas Engines for Quick Ramp-up. The MWM TCG 2032 gas engines, whose output ranges from 3,000 to 4,500 kW el, are custom-tailored to the challenges of a dynamic market setting. The engines ensure ...

Mannheim, November 15, 2022. The University of York has received its third MWM gas engine in a special "package": an acoustically attenuated container with detailed visuals on the outside. The MWM TCG 3020 V20 is part of the university's energy center, which supplies the campus with power. The engine was delivered and installed by the UK and Ireland MWM distributor Edina.

MWM Retrofit Kits for Hydrogen Operation. Existing plants of the TCG 3016, 3020, and 2032 series can be upgraded with the MWM 25H2-Kit for operation with a hydrogen admixture of up to 25 vol%. ... Beijing Pauway Energy Technology Co., Ltd. Service and Sales. A-211, Huaye International Centre No. 39 Dongsihuan Road Chaoyang District Beijing ...

Mit seiner Marke MWM blickt Caterpillar Energy Solutions auf eine mehr als 150-jährige Tradition zurück, stets begleitet vom Pioniergeist unserer Gründer Carl Benz und August Ritter. Die Begeisterung und Innovationskraft unserer Ingenieure brachte dabei immer wieder neue Innovationen hervor. Sie trugen dazu bei, dass MWM bis heute eine der ...

"An MWM TCG 2016 V12 gas engine with an output of 600 kW forms the core of the plant and represents a perfect solution for the energy requirements at the location. The powerful gas genset is characterized by efficiency, reliability, flexibility, and ecological sustainability along with low lifecycle costs and high profitability", says Tony ...

Award-Winning "Green Village" in Alfhausen: Two MWM Gas Engines Produce Sustainable Energy from Biomethane for the Local Heat Network. Mannheim, September 29, 2022. An innovative energy project is currently being rolled out in Alfhausen in Germany's Osnabrück Land region. The project demonstrates how it will be possible to implement ...

The product portfolio in MWM's TCG 2020 series includes a 16-cylinder version and a 20-cylinder version in addition to the 12-cylinder model used in this project. MWM has increased the outputs of this gas engine line to 1200, 1560 and 2000 kW electrical, respectively, which amounts to an effective increase of electrical efficiency of up to 3.3%.

In Togo, rural electricity projects are steered by the Rural Electrification and Renewable Energy Agency. Several companies, including BBOX, EDF, and Sun King-Soleva, are actively working to promote universal ...

The economical MWM TCG 2020 gas engine is deployed around the globe for power generation in CHP plants. The series features an electrical output range from 1,000 to 1,560 kW and supports operation with all types of gas, including natural gas, biogas, landfill gas, sewage gas, mine gas, and other gases.

In all, the 485-bed hospital is seeking to save 23 percent of its energy costs by investing in the MWM cogeneration plant. The savings of EUR350,000 are intended to go towards future modernization measures in St. Joseph's Hospital. BEA financed, planned and, finally, had the CHP plant installed. Additionally, it is responsible for running the ...

MWM has already rolled out various visionary energy projects for innovative heat and power supply that go beyond conventional energy generation. For example, the largest subterranean urban power plant in the ...

Eco-friendly MWM cogeneration power plants with combined heat and power enable decentralized, economical and energy-efficient power production. Container Cogeneration Plant Available for TCG 3016, TCG 3020 and TCG 2020 gas engines.

The plant is operated with three MWM TCG 2020 V20 gas engines that were delivered by the MWM distributor Beijing Pauway Energy Technology Co., Ltd., which also prepared the plans for the project's energy systems. The gas engines deliver an output of 2,000 kW each. Kitchen waste contains a lot of organic substances, from which biogas is gained ...

The energy solutions with MWM gas engines are tuned to the challenges of the Latin American energy market. CHP plants and cogeneration power plants with MWM generator sets deliver a high degree of flexibility and adaptability, which makes them extremely future-proof. By offering the website mwmenergy.lat as well as a Spanish language version on ...
