

Are DIY solar panels legal?

Yes. DIY solar panel installation is perfectly legal. However, installing DIY solar panels requires you to assume some legal responsibilities. You'll need MCS certifications to sell your home with the panels included. MCS is a mark of quality that demonstrates the installer and solar panels meet the highest standards.

Do I need permission to install solar panels?

Nevertheless, if your building is listed or located in a conservation area, you will need to seek specific permissions. It's paramount that any solar panel installation is carried out by the Microgeneration Certification Scheme (MCS).

Do you have a tax obligation for a DIY solar panel installation?

No. You'll not have any tax obligation for a DIY solar panel installation on your residential property. In April 2022, the UK government introduced a zero-rate VAT on installing energy-saving materials like solar panels in residential accommodations to encourage households to adopt renewable energy sources.

Should you install solar panels?

If you're one of the thousands of UK residents seeking to escape the grid and take power back into your hands to mitigate high energy bills and living costs, installing solar panels is the way to go!

Is it illegal to install solar panels on a residential property?

A do-it-yourself solar panel installation is not illegal. You'll typically not need planning permission to install solar panels on the roof of your residential property. You'll need permission to install solar panels on a listed property or a conservation area.

Should I buy a DIY solar panel kit?

To save cash, you may be tempted to buy a DIY solar panel kit and fit your panels by yourself. DIY solar panels are widely available and many are excellent value compared with the cost of professional installation. For example, a full 3.4kW 10-panel kit from Plug-in Solar costs £4,728.

Installing a power meter for net metering is another factor that can extend your solar panels' installation time. If your installer needs to install a power meter, it will add a few hours to the time taken to install your solar panels. Getting Your System Approved and Connected
