

# Tonga texel energy storage

What is Texel energy storage?

TEXEL Energy Storage is a global co-operation, including US Department of Energy, Savannah River National Laboratory, and Curtin University in Australia, is developing a game changing energy storage technology that moves beyond Lithium and that is competing head-to-head in combination with renewable energy technologies with fossil fuels.

How does Texel work?

This system excels at utilizing low-quality gases by harnessing thermal energy, offering a scalable and reliable solution for waste heat management. In doing so, TEXEL contributes to cleaner and more sustainable energy production, reducing environmental impact while leveraging previously untapped energy resources.

What's new at Texel?

This rebranding marks a new phase for the company with focus on commercialisation, where energy storage remains a prioritized business area, while new business divisions such as TEXEL Flare Gases, TEXEL Defence, and TEXEL Biofuels are introduced.

What makes Texel a great company?

TEXEL has, over the years, developed and acquired technology and companies that together represent a total R&D value exceeding \$2 billion USD. This technology forms the foundation for TEXEL's business growth and positions the company uniquely in the market for green energy solutions. Restructuring for future commercial growth

Who is Texel energy?

TEXEL Energy is an innovative energy technology company with Swedish origins, dedicated to accelerating the green transition by developing and commercializing true-green, modular, and sustainable solutions to meet global energy challenges.

Why is Texel a strategic investment for the future?

This establishes TEXEL's solution as a strategic investment for the future, moving beyond traditional costs and the perpetual demand for supply. TEXEL has established itself as a global frontrunner in the realm of Stirling technology. Renowned for its scalability, this technology adeptly converts heat into electricity with high energy efficiency.

CTO at Texel Energy Storage - Developer of green tech &#183; My ambitions are to make a difference in my daily work by adding new thinking and value. That is done by using my strengths to drive results, prioritize, see holistic view. & lt;br& gt; My key areas are taking technology from concept to business, getting the quality right, and ensuring the business model is the driver of the ...
