Should you buy a solar PV system in Barbados?

One of the biggest, if not the biggest hurdle to further solar PV penetration in Barbados is the upfront cost of a system. When you think about the fact that the cost is essentially the prepayment of 25-30 years worth of electricity it makes sense that the price is "high". If you could purchase a ... Continue reading ->

What is a turma solarset?

Protects the battery of your mover from deep discharging and maintains the voltage in the battery. All Turma Solarsets include equipment for installation. The right accessories allow independent travelling even far removed from the nearest power source.

View and Download Truma SDC12 operating and installation instructions online. Solar Dual Battery Charge Controller. SDC12 controller pdf manual download. Also for: Sdc25.

Interestingly mine came with a Sargent solar controller rather than the Truma one you have (not that i use it, i use a Victron MPPT controller now as the Sargent one was garbage). Reactions: DaveA1. J. JTQ. May 7, 2005 3,571 1,382 20,935 Visit site. Apr 5, 2023 #22 littlebasher said: i use a Victron MPPT controller now

Fast forward to the present and as of August 2013, the installed solar PV capacity has jumped by almost 4500% to 1700kW [3]! This is as a result of the Renewable Energy Rider program. In addition, the Government of Barbados has shown that it is fully committed to the idea of renewable energy and solar PV, thereby preparing the country for even more substantial ...
