What is TuNur energy doing in Tunisia?

In Tunisia, Nur Energie is developing the world's first CSP solar export project between North Africa and Europe. For more information about the TuNur project please visit the TuNur company website:

Who produces the most electricity in Tunisia?

While STEG controls the vast majority (91.7%) of installed generating capacity and generates 84% of the country's electricity, there is one independent power producer, Carthage Power Company, operating in Tunisia. Carthage Power Company owns and operates a 471-MW combined cycle power plant.

What is TuNur doing in Tunisia?

TuNur is developing a series of renewable energy projects that will produce low-cost green electrons and molecules in Tunisia for export. Each export project consists of three components: 01. Generation

What is TuNur energy?

Nur Energie has been present in Tunisia since 2008 working with local Tunisian and Maltese partners and investors to contribute to the solar energy industry in the region. The TuNur project consists of a 2,250 MW solar CSP power plant in the Sahara desert and a 2 GW HVDC submarine cable from Tunisia to Italy.

What is the TuNur project?

The TuNur project consists of a 2,250 MW solar CSP power plant in the Sahara desert and a 2 GW HVDC submarine cable from Tunisia to Italy. As the power plants become operational, they will generate circa 9,400 GWh of 100% renewable and dispatchable power per annum.

How many kV power lines are there in Tunisia?

The project will consist of 660 km of 525-kV ACDC overhead lines in Tunisia, 661 km of 525-kV DC submarine cables, and 7 km of 525-kV DC and 400-kV underground cables, terminating at an existing high-voltage substation. Tunisia's power sector is well-developed, with 99.8% of its population having access to the national electric grid.

Tunisia The Tunisian Government is committed to having renewable energy form 30% of its energy mix by 2030. As part of this strategy the Government is promoting a series of large scale solar and wind projects of various capacities ...
