

What is the Tunisian Solar Plan?

The Tunisian Solar Plan contains 40 projects aimed at promoting solar thermal and photovoltaic energies, wind energy, as well as energy efficiency measures. The plan also incorporates the ELMED project; a 400KV submarine cable interconnecting Tunisia and Italy.

Does Tunisia have a solar power plant?

First utility-scale photovoltaic plant (10 MW,in Tozeur) was commissioned in 2019on German money. Tunisia aims to generate 30% of its electricity from renewable sources by 2030. The country currently gets only 3% to 6% of its electricity from renewable sources,mostly from wind and hydro. Solar energy capacity is at 35 megawatts (MW).

What are Tunisia's energy projects?

One third of the projects will be for wind farms and two thirds for solar photovoltaics. Tunisia's national grid is connected to those of Algeria and Libya which together helped supply about 12% of Tunisia's power consumption in the first half of 2023.

What is the productivity of PV solar systems in Tunisia?

With these favourable conditions,the productivity of PV solar systems in Tunisia is very high. According to IRENA's Global Atlas,annual electricity production by PV solar systems varies between 1 450 kWh per kilowatt-peak (kWp) in the northwest region and 1 830 kWh/kWp for systems installed in the extreme southeast region.

Where is the first large scale solar power plant in Tunisia?

The first large scale solar power plant of a 10MW capacity,co-financed by KfW and NIF (Neighbourhood Investment Facility) and implemented by STEG,is in Tozeur. TuNur CSP project is Tunisia's most ambitious renewable energy project yet.

What is solar water heating in Tunisia?

Figure 26. Sources: ANME (2019). The solar water heating (SWH) sector in Tunisia was initiated in the 1980s through the creation,in 1982,of the first manufacturing unit for solar water heaters and the establishment of a specific consumer credit system.

Explore Solar Panel Manufacturer in Tunisia, strategic supply chain hubs, and essential fairs for industry growth and innovation. Tunisia, a North African nation, is harnessing the sun's power to illuminate its path towards renewable energy. With its favorable geographic location, boasting over 3,000 hours of sunshine per year, Tunisia has ...
