

Gibbs Cay is the best outdoor and nature attraction near Grand Turk. The shallow waters surrounding this tiny uninhabited island are home to a multitude of friendly stingrays of all sizes. Upon the arrival of boats to the cay, stingrays will approach from all directions and freely interact with visitors. A truly one-of-a-kind experience.

The dataset is a polygon shapefile layer with all the inland water bodies of Turks and Caicos. It includes freshwater ponds, salt water ponds, natural channels lagoons and other water bodies inside the islands as well as artificial channels and marinas. The data can be visualised at: <https://webgis.gov.tc>
