What is the Box Canyon solar project?

The Box Canyon solar project is a 300MW project being developed by BrightNight and Cordelio Power in Pinal County, near the town of Florence in the US state of Arizona. It is the first project to begin construction in the state's 2GW portfolio by these developers.

What is the BrightNight Box Canyon Project?

The BrightNight Box Canyon project, located in Pinal County, Arizona, is an exceptional opportunity to procure power from a highly dispatchable solar + storage system.

How many jobs will the box canyon solar project create?

During the construction phase of the Box Canyon solar project, which is expected to begin operations in Q2 2025 and supply power to the Southwest Public Power Agency (SPPA), up to 300 jobs could be created. Credit: Thuwanan Krueabudda/Shutterstock.com.

Who is building a 2GW solar power plant?

BrightNight and Cordelio Power are the companies building the first project in the state's 2GW portfolio, named Box Canyon solar plant. The power generated from the solar plant will be supplied to 21 constituent members of the SPPA.

How does brightnight solar work?

The 300MW Box Canyon solar plant in Arizona will generate clean energy for 77,000 homes and avoid the emission of 640,000 tonnes of CO₂ annually. It will feature BrightNight's artificial intelligence-driven platform, which maximizes performance and delivers high value at a low cost.

How many MW of solar power will be delivered in 2024?

A further 200MW of solar power will be delivered in spring 2024. The BESS will engage in the Energy Reliability Council of Texas (ERCOT) market, with solar PV output supplied to an NRG Energy affiliate. How well do you really know your competitors?
