APS also ...

Enhance the power protection of your critical infrastructure with the resilience and efficiency of the Liebert APS double-conversion uninterruptible power supply.

The ASR-2000 series, an AC-DC power source suitable for system integration or desktop applications, provides both rated power output for AC output and rated power output for DC output. The APS-7000 series programmable AC power sources consist of 500VA of APS-7050, 1000VA of APS-7100, 2000VA of APS-7200, and 3000VA of APS-7300.

5 kVA/4.5 kW power modules deliver enhanced active power Scalable, pay as you grow architecture optimizes initial investment Integral battery monitoring and temperature compensated charging for extended battery life and fewer replacements Fault-tolerant design allows the critical load to run on conditioned power in the unlikely event of component failure.

APS has an extensive partnership network, which allows us to source the best in class products on the market. Our range of lighting and safety products are ideal for mobile equipment and industrial applications. Discover how APS and its partners can work to your advantage. Best in Class Products through quality, life of product value and support.

5kVA/4.5kW Power Module for AS3 & AS4 series Liebert APS systems. APSBATMODCU. All APS Systems. APSBATMODCU includes 2 battery modules, or 1 complete battery string. Each complete string uses 2 bays in the Liebert APS. APSCHRGRMOD. All APS Systems. 10A battery charger that operates in parallel with the chargers integrated in each Power module.

Worker safety is of the utmost importance. When it comes to working at night, having the worksite properly illuminated helps keep workers safe. One of the most common forms of illuminating worksites is through tower lighting. Tower lighting provides temporary lighting on constructions, mining, ports, parking lots, tunnels, and many more worksites. But running older...
