What is HPE MSA 24TB SAS LFF HDD?

HPE MSA 24TB SAS LFF HDD option available as a single drive or 6-pack HDD bundle. Increases MSA 2062 array maximum raw capacity to 2.76PB with up to 9 additional MSA 2060 LFF Drive Enclosures added. HPE MSA Storage certification as a Backup Repository to provide seamless protection and Instant VM Recovery with Veeam Backup and Replication.

What is MSA DP+?

MSA-DP+ is a RAID-based data protection level that has been newly introduced with 6th Gen MSA Storage systems. It maximises flexibility and delivers built-in spare capacity. Performance is optimised with the elimination of idle spares. MSA-DP+ enables for quick rebuilds, large storage pools and easy expansion.

Is MSA 2060 a good storage system?

An affordable, flash-ready hybrid storage system that provides cost-effective application acceleration. Highly scalable and excellent at handling compute intensive workloads, MSA 2060 storage arrays are ideal for small businesses who require an entry-price system that still packs a serious punch.

HPE MSA 2072 2U small form factor hybrid-flash storage array bundle with two 12 Gb SAS 4-port controllers, two 1.92 TB Read Intensive Solid State Drives, an HPE Advanced Data Services license, and two 580W redundant power supplies

The HPE MSA 2062 gives you the combination of simplicity, flexibility and advanced features you may not expect in an entry-priced storage array. Starting with 3.84 TB of embedded flash ...

The HPE MSA 2042 SAN Storage is one of the industry's fastest entry-level storage arrays, and comes with 800 GB of SSD capacity standard. The all-inclusive set and forget software suite includes built-in, real-time data tiering that dynamically moves constantly used data to flash and less used data to lower-cost media tiers.

The HPE MSA 2062 gives you the combination of simplicity, flexibility and advanced features you may not expect in an entry-priced storage array. Starting with 3.84 TB of embedded flash capacity, you can scale the system from there with any combination of solid state disks (SSD), high-performance Enterprise SAS HDDs, or lower-cost Midline SAS HDDs.
