Vanuatu's series of money banknotes will see the Vt500 paper-note changed to polymer at the end of this year. In his announcement, the Governor of the Reserve Bank of Vanuatu (RBV), Simeon Athy, said that the Vt5,000 was the second last denomination of the new Vatu family series of polymer banknotes.

The OFV-5000 controller is designed to accept a choice of signal processing modules, each optimized for different frequency, velocity or displacement performance. Each module is therefore tuned for different measurement tasks by making the best use of the vibration information in the Doppler signal obtained by the sensor head. Various analog ...
