

Will VCIG acquire a solar farm in North Macedonia?

VCIG Global has engaged the consulting firm OTB Solutions Dooel Skopje in North Macedonia to identify and secure additional solar farm opportunities. "This is the beginning of a series of solar farm acquisitions that VCIG will undertake and looking ahead for more acquisition opportunities across Southeast Asia and Europe.

What is Verdo Energy's decentralized waste to energy concept?

Verdo Energy's decentralized Waste to Energy concept is focused on handling the waste where it is generated and converting the energy from waste into thermal or electrical energy used for private industries or local municipalities with a need of energy. We have four standard sizes for the waste to energy boiler plant, 4MWt, 6.7MWt, 10MWt and 15MWt.

What size boiler does Verdo energy offer?

We have four standard sizes for the waste to energy boiler plant, 4MWt, 6.7MWt, 10MWt and 15MWt. Verdo Energy has many years of experience within biomass conversion, and the company converted its own CHP plant in 2009. At the same time, we supply hot-water boilers in the 1-20MW capacity range for production of heat and steam.

What services does Verdo offer?

Verdo can meet all of your energy needs. Here is a selection of our services. Professional consultancy, quality, profitability and high reliability are keywords, irrespective of which plant you choose. We set specific KPIs for operations and identify and optimise areas of poor performance.

Does North Macedonia have a decarbonization goal?

Despite historically relying on lignite coal mining for approximately 30% of its electricity production and gas imports for an additional 15%, North Macedonia has set ambitious decarbonization goals.

Over de sidste 20 år er biomasse, som træflis, halm og træpiller, blevet et effektivt alternativ til fjernvarmeanlæg - og med god grund. Ved varmeproduktion på biomasse reduceres produktionsomkostningerne. Det sikrer, at varmeværker ...

Verdo Energy Systems is responsible for the machinery contract for two 10MW straw plants for Thisted Varmeforsyning. It was a sight out of the ordinary upon delivery of the new facilities. With the assistance of a 400-tonne mobile crane, the boiler's three heaviest components were elevated safely into the air and down through the roof of the ...

We have four standard sizes for the waste to energy boiler plant, 4MWt, 6.7MWt, 10MWt and 15MWt. Our energy system is developed to burn waste coming from house hold waste, industrial waste, RDF waste and demolition wood. The Verdo Waste to Energy plant complies with EC norms related to the waste incineration directive.

Over de sidste årtier er biomasse, som træflis, halm og træpiller, blevet et effektivt brændselsmiddel til fjernvarmeanlæg - og med god grund. Ved varmeproduktion på biomasse reduceres produktionsomkostningerne. Det sikrer, at varmekærker kan minimere eventuelle stigende varmepriser til forbrugerne.

1 · By the end of 2023, North Macedonia had deployed 535 MW of solar capacity, a significant increase from 190 MW at the end of 2022, according to the International Renewable ...

Verdo Energy Systems er en del af Verdo-koncernen. Selskabet dækker hele processen fra design til drift af energianlæg og har mere end 30 års erfaring med udvikling og etablering af individuelle løsninger tilpasset specifikke behov til det industrielle marked og forsyningsselskaber i hele Europa.
