As a client-focused Tier 1 PV manufacturer, Sunova Solar offers a comprehensive range of solar products and components. From solar panels to inverters, storage systems and combined solutions as well as balance of system parts and complete solar balcony sets. The pages for these products will be added soon.

High-Temperature Performance. The power temperature coefficient is the amount of power loss as cell temperature increases. All solar cells and panels are rated using standard test conditions (STC - measured at 25°C) and slowly reduce power output as cell temperature increases. Generally, the cell temperature is 20-35°C higher than the ambient air ...

Brand Power. Through time-tested experience in the past 46 years, SUMEC Group, the parent company of PHONO became an icon of excellence in the global trading markets. Rely on the parent company's strong support, PHONO can provide our worldwide clients with trustworthy solar products and project solution services.

Under PDP 8, solar power is projected to reach 20,591 MW by 2030 and 189,000 MW by 2050, generating 252-291 billion kWh annually. By 2050, solar power is expected to become Vietnam's largest electricity source, accounting for over 38.5 percent of ...

Trina Solar's 35MW Trung Son Solar Power Plant in Vietnam "The Belt and Road" countries are mostly developing countries that have growing power demands. ... "as two pioneers in China's renewable energy industry, Trina Solar and SUMEC Complete Equipment have a shared objective of overseas market development. We expect to facilitate the ...

Aboitiz Power Corporation has awarded Hansei Corporation and China-based SUMEC Complete Equipment and Engineering Company an engineering, procurement, and construction (EPC) contract for its 159 MWp Laoag and Laoag 2 solar power project in Pangasinan, Philippines. The solar project will be developed in two phases, out of which ...
