Webasto battery systems The Gambia

Where are Webasto batteries made?
Our battery systems are developed,tested and produced in the Webasto plant Schierling in Germany- so every battery meets the very highest standards. The thermo management solutions from Webasto shorten charging cycles,extend battery life and ensure pleasant temperatures inside the vehicle.

Is Webasto a good battery system for commercial vehicles?
The Webasto CV standard battery system is designed for the commercial vehicle market and offers robust packaging,automotive standard design,zero compromise quality and an efficient cooling interface. Coupled with Samsung SDI state-of-the-art cell technology,Webasto CV standard battery system is a perfect fit for commercial vehicles.

What is the Webasto CV standard battery system?
The compact device collects diagnostic data from the Webasto CV Standard Battery System for fast software updates, remote maintenance and extended warranty services. When electrifying vehicles, Webasto develops a vehicle system together with its customers.

Does Webasto offer a vehicle interface gateway?
For off-road use,Webasto offers the Vehicle Interface Gateway Plus (VIG Plus)in addition. The VIG Plus has a very robust housing for use in mobile machines and is CE certified for this purpose. The Vehicle Interface Gateway is a small and flexible master BMS and allows interconnection of up to 18 batteries at a system voltage of 400 or 800 Volt.

Does Webasto offer a vehicle interface gateway (Vig)?
In addition to the powerful and intelligent Vehicle Interface Box,Webasto also offers the Vehicle Interface Gateway (VIG). This gives customers even more power for on-road vehicles and with more compact dimensions. This offers greater flexibility when combined with the Standardized Battery System and when used in a limited installation space.

Ultimate high-power test system 900 EX from Webasto for advanced testing & emulation of active and passive loads.
