

Xaris energy solutions Bermuda

What does xaris developments do?

As such, Xaris Developments has access to its own as well as external investment funds; for investment in energy and high technology infrastructure. We assume responsibility for the design, development, construction, operations and maintenance of our projects.

Why should you choose xaris?

Xaris has developed numerous financial models for various generation infrastructure projects including hydro, solar, wind farms, open and closed cycle gas generation, thermal generation, etc. Xaris is dedicated and passionate about financial modelling incorporating insightful analysis and industry experience.

How does xaris developments finance critical infrastructure projects?

Xaris Developments has the capacity and track record to deliver highly complex integrated infrastructure projects to the market. Limited recourse financing is a popular method for financing projects and globally emerging markets are increasingly utilising this model for the financing of their critical infrastructure projects.

Why should you invest in xaris development?

It is critical to Xaris Development's vision that we have the financial freedom to invest in, and co-fund flagship development projects. As such, Xaris Developments has access to its own as well as external investment funds; for investment in energy and high technology infrastructure.

Who is xaris & Walvis Bay power plant?

Xaris is dedicated and passionate about financial modelling incorporating insightful analysis and industry experience. Walvis Bay Power Plant is innovative, cost-effective and environmentally-friendly - a model for forward-thinking solutions to the increasing power needs in the SADC region.

Why do xaris use the fast standard?

Xaris's financial models are robust; we use the FAST standard to compile our models thereby reducing model risk significantly. The FAST standard is an independent, externally recognised modelling standard, models that are compiled to these standards are flexible, appropriate, structured and transparent.
