

# Younicos battery storage Benin

What is a Younicos battery based energy storage system?

Centrica (UK) Younicos has been selected by Centrica to design and deliver one of the world's largest battery-based energy storage systems. To be completed by winter 2018, the 49 megawatt (MW) lithium-ion system will respond to fluctuations in electrical demand in less than a second, to maintain electric power frequency and stability.

What did Younicos do?

Younicos was a German-American technology company that developed and sold energy storage systems and control software. The company integrated battery technologies, power electronics and control software to create systems that respond to the energy management requirements of power networks of all sizes, including micro-grids.

What happened to Younicos?

In July 2017, Younicos was acquired by Aggreko and is now a wholly owned subsidiary of the Scottish company. In October 2018, Aggreko completed the integration of Younicos into its newly formed Microgrid and Storage Solutions business unit. The name "Younicos" is no longer in use. Y.Cube

Did Younicos buy Xtreme Power?

(Prince declined to confirm or deny the \$200 million figure.) Last year, Younicos bought the assets of Xtreme Power, a bankrupt U.S. grid battery maker and control software vendor, adding about 60 megawatts of working projects to its portfolio.

What happened to Younicos & Aggreko?

Sign that greets visitors to Younicos' German offices. Image: Younicos. Energy storage provider and system integrator Younicos has been bought out by Aggreko, a power generation equipment and energy controls supplier.

How much money has Younicos raised?

According to Bloomberg, Younicos has raised about \$200 million from backers including Samsung and German-Japanese flow battery maker Gildemeister/DMG Mori Seiki. (Prince declined to confirm or deny the \$200 million figure.)

If C&I users deploy storage in conjunction with solar, our battery systems will also help them optimise self-consumption and synch it with both their own energy demand and opportunities on the grid. On top of that, C&I users ...

Increasingly, solar energy and behind-the-meter battery storage assets are being deployed on an "as-a-service" basis and system integrator Younicos has decided to ...
