

What did Skeleton Technologies invest in?

Skeleton Technologies closed a EUR108M funding round that includes Siemens Financial Services (SFS), Marubeni Corporation and other investors. This funding will accelerate the development of next-generation products and finance the manufacturing expansion for supercapacitors and the company's new high-power battery technology - the SuperBattery.

What is Skeleton Technologies doing in Finland?

Skeleton Technologies is strengthening its presence in Finland by opening a new research and product (R&D) development unit at LUT University campus area in Lappeenranta this year. This marks the company's second major investment... In today's global society, energy--specifically electricity--is the backbone of every major industry.

How much did Skeleton Technologies raise?

“Estonia's Skeleton Technologies raises another EUR108m to scale fast-charging battery tech”; sifted. “Skeleton Technologies raises EUR108M in funding round led by Siemens and Marubeni”; Tech.eu. 2023-10-13. Retrieved 2023-10-19. “AS Harju Elekter to invest in Skeleton Technologies Group O”; Harju Elekter. 2021-07-01. Retrieved 2022-11-07.

Who does skeleton work with?

In heavy transport and grid applications, Skeleton works with the Italian electronics wholesaler DimacRed S.p.A. for distribution and technical cooperation. Skeleton has developed solutions for cranes and elevators as well as technologies for the marine, medical, and oil & gas sectors.

Where is skeleton made?

The factory will be located in Markranst#228;dt and is Skeleton's second manufacturing site in the state of Saxony. Skeleton produces supercapacitors to improve fuel efficiency and support power storage and discharge in electric vehicles.

Who is skeleton?

Skeleton was established in 2009 by Oliver Ahlberg, Taavi Madiberk, Dr. Jaan Leis, and Dr. Anti Perkson when they began developing graphene-based supercapacitors. The company now has over 300 employees throughout its various locations. Skeleton operates in Germany and Estonia, with headquarters, IT and module development in Tallinn.
