

Who is Verdo?

Verdo provides energy solutions for the future. We specialise in energy savings and efficiency, sustainable energy production and sales of bioenergy fuels.

What is Verdo Energy's decentralized waste to energy concept?

Verdo Energy's decentralized Waste to Energy concept is focused on handling the waste where it is generated and converting the energy from waste into thermal or electrical energy used for private industries or local municipalities with a need of energy. We have four standard sizes for the waste to energy boiler plant, 4MWt, 6.7MWt, 10MWt and 15MWt.

What size boiler does Verdo energy offer?

We have four standard sizes for the waste to energy boiler plant, 4MWt, 6.7MWt, 10MWt and 15MWt. Verdo Energy has many years of experience within biomass conversion, and the company converted its own CHP plant in 2009. At the same time, we supply hot-water boilers in the 1-20MW capacity range for production of heat and steam.

How can Zimbabwe achieve a sustainable future?

Zimbabwe has the potential to maximise its renewable energy resources and achieve a more environmentally sustainable future through the implementation of favourable legislation, substantial infrastructure investments, and active promotion of public engagement in sustainable energy development.

What is solar photovoltaic (PV) in Zimbabwe?

The growing adoption of solar photovoltaic (PV) systems is a notable trend in the renewable energy market in the Zimbabwean industry. Industries leverage solar energy to power their operations, reduce reliance on the national grid, and mitigate the impacts of frequent power outages.

What services does Verdo offer?

Verdo can meet all of your energy needs. Here is a selection of our services. Professional consultancy, quality, profitability and high reliability are keywords, irrespective of which plant you choose. We set specific KPIs for operations and identify and optimise areas of poor performance.
