

Zing Energy Ltd have had the pleasure of working with DC Energy for several years and have continued to use their services thanks to their demonstratable expertise and professionalism. They have become our preferred contractor for Solar PV installations around the country and in particular in the Southwest of England.

Since then Zing has helped thousands of householders warm their homes and cut their bills. Making affordable energy saving solutions and expertise a reality for every household and business in the country, reducing fuel bills and helping the UK hit its carbon reduction targets.

They were frustrated with the lack of affordable energy provision out there and realised millions of householders and businesses were missing out on energy grants to keep their bills low. Since then Zing has helped thousands of householders warm their homes and cut their bills.
